

EC DECLARATION OF CONFORMITY

Load Slings, the CE Marking and Declaration of Conformity.

This note applies to all load slings which are flat woven webbing slings, made of man-made fibres.

EN 1492-1:2000+A1:2008 is the standard for load slings. The standard states that CE Marking is applicable and that the CE mark must be marked at any visible place on the label (EN 1492-1 Section 7, Marking Figure 3, 3rd Note refers).

Marking the product with EN 1492-1, and CE represents the manufacturer's (Sealey's) Declaration of Conformity (EN 1492-1 Section 7. Marking, 7.1 refers).

It is for this reason that a separate printed Declaration of Conformity is neither required nor raised for a Load Sling.
