Safety

- **IMPORTANT:** Installation by a qualified professional is strongly advised.

- **WARNING!**

Use a detection device: Before drilling, use a digital detection device to identify live wires and pipes. Ensure the device is positioned correctly against the wall for accurate results. If in doubt consult a professional.

- **WARNING!**

Check for studs: If you suspect the wall contains live wires, check for wooden studs first. Drilling into a stud is generally safe, but drilling into a wire can be dangerous. If in doubt consult a professional.

- Make sure the mounting surface is strong enough to handle the combined weight of the bracket and the television/monitor.
- **DO NOT** exceed the maximum weight capacity of 120kg.
- Installation must be done by two people or a suitable mechanical lifting device in order to safely lift and position heavy products.
- Tighten screws and fixings firmly but **DO NOT** overtighten. Overtightening can cause product damage that greatly reduces the holding power.
- Keep a clear work area to avoid any trip or other hazards.
- Only use the product for its intended use. **DO NOT** stand, climb or hang on the product.
- This product is for indoor use only.
- **DO NOT** attempt to modify the product in any way. This will invalidate the warranty and cause safety issues leading to damage and/or injury.
- Keep children and pets away from the installation area. This product contains small items that could be a choking hazard.
- Check the product is secure and safe to use at regular intervals (at least every three months).
