1. SAFETY

1.1. ELECTRICAL SAFETY

- ☐ **WARNING!** It is the user's responsibility to check the following:
 - ✓ Check all electrical equipment and appliances to ensure that they are safe before using.
 - ✓ Inspect power supply leads, plugs and all electrical connections for wear and damage.
 - ✓ Ensure that the insulation on all cables and on the appliance is safe before connecting it to the power supply.
 - ✗ **DO NOT** use worn or damaged cables, plugs or connectors.
 - ✓ Ensure that any faulty item is repaired or replaced immediately by a Sealey qualified technician.
 - ✓ If the cable or plug is damaged during use, switch off the electricity supply and remove from use.
- ☐ **IMPORTANT:** Ensure that the voltage rating on the appliance suits the power supply.
 - ✗ **DO NOT** pull the plug from the socket by the cable.
 - ✗ **DO NOT** unplug the plug from the charging infrastructure or the car by pulling on the charging cable.
 - ✓ Protect the cable from heat, oil and sharp edges.
 - ✗ If the cable is damaged, unplug the plug immediately. A damaged charging cable can lead to death or serious injuries. Before each use, check the charging cable for damage (e.g. cracks). **DO NOT** use damaged charging cables.
 - ✗ **DO NOT** short circuit the contacts on the plugs.
 - ✗ **DO NOT** put fingers or sharp objects into the plug contacts.
 - ✗ **DO NOT** hold plugs under water or immerse in water.
 - ✗ **DO NOT** use an adapter plug or extension cable. The charging cable must be plugged directly into the charging infrastructure and the car.

1.2. GENERAL SAFETY

- ✓ Familiarise yourself with the product before using it for the first time. Read through the following operating and safety instructions carefully before use. They form part of the product and must be available at all times.
- ✓ **Intended use:** Using the charging cable, electric and hybrid cars, can be charged from a charging infrastructure intended for this purpose. Any other use is not permitted and is therefore regarded as improper use. The charging cable is only safe, if these operating instructions and the documentation for the charger and car are followed.
- ✓ **NOTE:** In case of doubt, get a qualified electrician to check that the charging infrastructure is suitable.
- ✓ Failure to follow these instructions can lead to personal injury or damage to property, such as, for example, electric shock, short circuit or fire.
- ✓ The charging cable has been developed for consumer use and is not suitable for use in a commercial or industrial environment.
- ✓ The product must only be used by people who have been trained to do so.
- ✓ Keep children and animals away from the charging cable.
- ✗ **DO NOT** allow children to play with the charging cable. Cleaning and day-to-day maintenance must not be performed by children.
- ✗ During operation, **DO NOT** point the charging cable at yourself or other individuals, and keep the charging cable well away from your ears and eyes. There is a risk of injury!

1.3. OPERATIONAL SAFETY

- ✗ **DO NOT** drop the charging cable while it is being used.
- ✓ The charging cable is only designed for electric cars with a Type 2 plug.
- ✓ When using the charging cable make sure that both connector plugs are securely in place.
- ✗ **DO NOT** use the charging cable while driving the vehicle.
- ✓ Before setup or first use, check the charging cable for any damage and do not use unless in perfect working order.
- ✗ **DO NOT** immerse the charging cable in any liquid. There is a risk of electric shock!
- ✓ Both the charging cable and plug, may become warm during operation. There is a risk of burn injuries from touching the hot surfaces.
- ✗ **DO NOT** operate the charging cable near to flammable liquids or gases. Failure to do so risks causing a fire or explosion!
- ✓ Unplug the plug from the charging infrastructure and the plug from the car:
 - When you are not using the charging cable
 - If you are doing cleaning work;
 - If the connection cable is damaged;
 - If foreign objects have got into the device or you notice unusual noises.

- ✓ Only use the accessories supplied and recommended by the manufacturer.
- ✗ **DO NOT** disassemble or modify the charging cable. The charging cable must only be repaired by a qualified maintenance technician.
- ✗ **DO NOT** expose the charging cable to any source of heat.
- ✗ **DO NOT** install in places where the temperature may exceed 50 °C.
- ✗ **DO NOT** connect the charging cable to a faulty or unsuitable charging infrastructure, which, for example, is not designed for the continuous use required.
- ✓ Protect the plug connections and plug devices from moisture and liquids by always keeping the cover caps on when not connected.
- ✗ **DO NOT** step on or drive over plugs or the charging cable.
- ✗ **DO NOT** jam or kink charging and connection cables.
- ✗ **DO NOT** touch plugs with wet hands.
- ✓ The charging cable must not be used if it is not possible to operate it properly in accordance with the instructions. Refer to the manufacturer, a responsible dealer or an electrician for advice.

2. INTRODUCTION

The Mode-3 Type 2 charging cable simply plugs into any work, home or public EV charging point. Charger is rated 16A with a maximum charge rate of 11kw working off a 3-phase supply. Cable Length 5m. Durable IP65 rated weatherproof design. Supplied in a storage bag.

3. SPECIFICATION

Model No	EVCC2211KW
Plug Type	Type 2 to Type 2
Cable Reel Length	5m
Nett Weight	2kg
Maximum Capacity	400V / 16A / 11kW
Electrical Class	3ph
Ingress Protection Rating	IP65

4. CONTENTS

fig.1

1	Cable
2	Type 2 Plug (charger)
3	Cover cap for charger plug
4	Type 2 plug (vehicle)
5	Cover cap for vehicle plug
6	Storage Bag

5. OPERATION

1

Insert the cable plugs into vehicle socket and charging station outlet.

2

Make sure both plugs are properly connected, charging will start.

3

DO NOT disconnect the charging cable whilst the vehicle is charging.

4

After charging is completed, unplug the charging cable from the vehicle, then from the charging station.

6. CLEANING

- ✗ The charging cable **MUST NOT** be submersed in water. There is a risk of injury, due to electric shock if moisture enters the device.
- ✗ **DO NOT** use cleaners or solvents. These could damage the charging cable beyond repair.
- ✓ Keep the charging cable and plugs clean. Use a damp cloth or a soft brush to clean the charging cable.

7. STORAGE

- 7.1. Keep the charging cable in a dry location and out of the reach of children.
- 7.2. To avoid damage, take care to ensure that the charging cable does not become kinked.

8. END OF LIFE

At the end of its service life, this product must be disposed of in an environmentally responsible manner. Components such as metal parts should be recycled wherever possible. **DO NOT** discard the appliance with general household or construction waste. Please follow all local environmental regulations to ensure safe and sustainable disposal.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
